

SIMPLY GRACIOUS LIVING

Room Makeover Foundation Worksheet

Plan the feeling, function, and foundation of your room before you begin decorating.

A successful room makeover begins before you shop. Use this worksheet to slow down, identify what is already working, and create a simple plan for the room you want to build.

1. Begin with the Feeling

How do I want this room to feel? Choose three words.

What do I want people to notice or experience when they enter?

2. Consider How the Room Needs to Function

What activities happen in this room?

What practical needs must the room support? (seating, storage, lighting, traffic flow, etc.)

3. Take Inventory Before You Shop

What do I already own that I definitely want to keep?

What could be moved, repurposed, refinished, or reimaged?

4. Identify the Foundation

Foundation Element	My Starting Point
Wall / Main Color	
Largest Furniture Piece	
Flooring / Rug	
Window Treatments	
Primary Wood / Metal Finish	

5. Decide What Is Actually Missing

Before buying anything, what does the room truly need?

My top three priorities for this room:

6. Set a Simple Budget

Priority	Planned Amount
Must-have purchases	\$ _____
Repairs / paint / DIY	\$ _____
Accessories / finishing touches	\$ _____
Total room budget	\$ _____

Simply Gracious Reminder

You do not need to finish the entire room at once. Build the foundation first, live with your choices, and add the next layer only when you understand what the room truly needs.
